"ALL IS WELL THAT ENDS WELL,"

Along with dyspepsia comes nervous-ness and general ill-health. Why? Be-cause a disordered stomach does not per-mit the food to be properly digested, and its products assimilated by the system. On the other hand the blood is charged with poisons which come from this dis-ordered digestion, and in turn the nerves are not fed on good, red blood, and we see symptoms of nervousness, sleeplessness and general breakdown. It is not head work that does it, but poor stomach work. With poor, thin blood the body is not protected against the attack of germs of

protected against the attack of germs of grip, bronchitis and consumption. Fortify the body at once with Dr. Pierce's Golden Medical Discovery—a rare combination of native medicinal roots without a particle of alcohol or dangerous drugs.

No man is stronger than his stomach. Let the greatest athlete have dyspepsia and his muscles would soon fail. Physical strength is derived from food. If a man has insufficient food he loses strength. If he has no food he dies. Food is converted into nutrition through the stomach and bowels. It depends on the stomach and bowels. It depends on the strength of the stomach to what extent food eaten is digested and assimil-ated. People can die of starvation who have abundant food to eat, when the the stomach and bowels. It depends on the strength of the stomach to what extent food eaten is digested and assimilated. People can die of starvation who have abundant food to eat, when the stomach and its associate organs of digestion and nutrition do not perform their duty. Thus the stomach is really the vital organ of the body. If the stomach is "weak" the body will be weak also, because it is upon the stomach the

body relies for its strength. And as the body considered as a whole is made up of its several members and organs, so the its several members and organs, so the weakness of the body as a consequence of "weak" stomach will be distributed among the organs which compose the body. If the body is weak because it is ill-nourished that physical weakness will be found in back and knees, in hands and feet equally. So also will the weakness be equally distributed among the organs heart, liver, kidneys, etc., being proportionately weak according to the amount of the reduction of their daily ration of the reduction of their daily ration

By way of example take the case of the Assistant Treasurer of the Catholl Foresters at Quebec, Mr. Louis Pare who writes:

who writes:

"For years after my health began to fail, my head grew dizzy, eyes pained me, and my stomach was sore all the time, while everything I would eat would seem to lie heavy like lead on my stomach. The doctors claimed that it was sympathetic trouble due to dyspepsia, and prescribed for me, and although I took their powders regularly yet I felt no better. My wife advised me to try Dr. Pierce's Golden Medical Discovery—and stop taking the doctor's medicine. She bought me a bottle and we soon found that I began to improve, so I kept up the treatment. I took on flesh, my stomach became normal, the digestive organs worked perfectly and I soon began to look like a different person. I can never cease to be grateful for what your medicine has done for me and I certainly give it highest praise."

THE SECRET OUT.

To refute the many false and malicious attacks, bogus formula and other untruthful statements published by competing and disgruntled medicine men concerning Doctor Pierce's World-famed Family Medicines the Doctor has decided to publish all the ingredients entering into his "Golden Medical Discovery," Harvafter every bottle of this medicine Hereafter every bottle of this medicine leaving the great Laboratory at Buffalo N. Y., will bear upon it a full list of all the ingredients entering into the compound, printed in plain English.
